## EDUCATION

---

### Chhattisgarh Swami Vivekanand Technical University

Bachelor of Technology in Computer Science - 75%

Aug 2018 - Sep 2022

## WORK EXPERIENCE

---

### Kandid Technology

Software Development Intern

Aug 2023 - Oct 2023

- Gained hands-on experience with HTML, CSS, JavaScript, jQuery, SQL and Bootstrap in developing and maintaining web applications.
- Contributed to debugging, optimizing code and improving performance, ensuring smoother functionality.
- Debugged and optimized front-end code to enhance performance.

### Kandid Technology

Junior Software Development

Nov 2023 - Present

#### Project: Batesville Funeral Solutions Development

Worked on both frontend and backend development, managing tasks across admin and web areas. Utilized technologies including HTML, CSS, Bootstrap, JavaScript, jQuery, MySQL, Jira, Git, Postman and ColdFusion. Collaborated with the team to integrate third-party libraries and enhance system functionality.

#### Key responsibilities included:

- Developing and introducing new features and tools
- Optimizing existing functionalities for improved performance and user experience.
- Debugging and resolving issues in frontend and backend systems.
- Investigating complex problems, identifying root causes, and implementing effective solutions.
- Collaborated with the team to integrate third-party libraries and enhance system functionality.

## PROJECT

---

### Zozo Dating

Present

- Developing a dating platform to enhance full-stack skills using React, Node.js, MongoDB, and JavaScript.
- Added mood and theme-based customization for a personalized user experience.
- Implemented features such as user profiles, matchmaking algorithms, mood-based feeling cards, and additional innovative ideas to enhance the user experience in this project.
- Currently focused on frontend development and user authentication.

## SKILLS

---

**Programming Languages:** JavaScript (ES6), HTML, CSS

**Frameworks and Libraries:** React.js, Node.js, jQuery, Bootstrap

**Developer Tools:** VS Code, Postman, MySQL Workbench, Jira

**Version Control:** Git, GitHub

**Databases:** MongoDB, MySQL

**Additional Knowledge:** Query optimization, API integration, JSON

**Additional Courses Taken:** Frontend Web Development, React.js Essentials, Backend Development, Database Management (MySQL, MongoDB), Intro to AI and ML Concepts.

## Area of Interest

---

Full-Stack Web Development, AI/ML for automation and intelligent solutions, and staying updated with modern web technologies to build scalable, responsive applications.
